Prices are stated in EURO's per 100 G. or otherwise as indicated.
To orders for less than the indicated quantities an additional charge of 20% is applicable

EURO / 100 gram

	Abelmoschus manihot see Hibiscus manihot	
	Abutilon vitifolium (Corynabutilon vitifolium) <i>Climbing Maple</i>	
010.20	Delft blue*, large exquisite lavender or porcelain-blue flowers, in form like the flower of a single hollyhock; vine-leaved silvery foliage; easily raised from seed	56,-- / 10 g
	Abutilon x hybridum maximum <i>Flowering Maple, Chinese Lantern</i>	
010.40	Bellvue mixed*, beautiful pastel shades; a large flowered selection	48,--
	Acacia dealbata (A. decurrens dealbata) <i>Mimosa, Silver Wattle</i>	
010.80	Species, bright yellow flowers; attractive foliage	38,--
	Acanthus mollis <i>Artist's Acanthus, Bear's Breaches, Bear's Foot, Branke-Ursine</i>	
011.00	Temple Pillars, white tinged pink; fine glossy green foliage; stout spikes	46,--
	Achillea millefolium <i>Thousand Seal, Bloodwort, Milfoil</i>	
011.50	Aquarelle*, warm, light & bright water-colour shades; abundantly flowering the 1st year; semi-dwarf plant habit	140,-- / 10 g
	Achillea nana <i>Dwarf Milfoil, Glacier Chamomile, Dwarf Alpine Yarrow</i>	
011.60	White, on slightly fluffy stems dense, flat-topped clusters of white flowers; attractive, dwarf aromatica plant; the lower woolly, pinnate leaves form almost white rosettes	28,-- 1 g.
	Achillea ptarmica <i>Sneezewort, Shirt-buttons, Goosetongues, Seven Year's Love</i>	
011.70	Ballerina, double flowered, pure white; dwarf; early; annual culture	66,-- / 10 g
	Achillea siberica (A. camchatica) (A. mongolica) <i>Mongolian Yarrow</i>	
011.80	Taiga Love *, soft pink; dark green foliage	88,-- / 10 g
	Aconitum hemsleyanum <i>Climbing Monkshood</i>	
012.20	Species, climber with deeply cut foliage; thin stems terminate in violet-blue flower heads	30,-- / 1.000 sds
	Actaea spicata (A. nigra) <i>Baneberry, Eurasian Baneberry, Herb Christopher, l'Actée en épi, Christophskraut, Hexenkraut, Wolfsbeere, Teufelsbeere, Christoffelkruid, Trolldruva, Trollbær, Druemunke, Mustakonnamarja, Czerniec Gronkowy</i>	
012.70	Black Berry, this is the black berried form from the Western Himalayas. Distinct!	158,--
	Actinidia chinensis <i>Chinese Gooseberry, Kiwi Fruit</i>	
012.80	Kiwi, creamy flowers; buff edible fruits	42,50
	Actinidia deliciosa (A. chinensis deliciosa) <i>Chinese Gooseberry, Kiwi Fruit</i>	
012.84	Hayward Giant, large-fruited commercial form; variable	96,--
	Actinotus helianthii <i>Flannel Flower</i>	
012.90	Species, star-like creamy white, flannel-textured flowers; deeply divided foliage; very attractive furry stems	212,--
	Actinotus humilis <i>Baby Flannel Flower</i>	
012.94	Species, unique felty white flowers; it flowers freely the first year from seed, and can thus be grown as a half-hardy annual; a most attractive and unusual plant with a great commercial potential	44,-- / 10 g

- Adenophora x hybrida**
Ladybells, Becherglocke, Drüsenglocke, Duft-Becherglock, Bekerklokje
013.00 Amethyst, large numbers of beautiful, nodding, bell-shaped lilac-blue flowers cover fine spikes which rise above inconspicuous rosettes of leaves; perfect for ornamental flower borders 90.-- / 10.000 sds
- Aethionema coridifolium**
Lebanon Candytuft
013.20 Pink, the true variety of this free blooming, perennial plant has heads of bright rose-pink and comparatively stout unbranching stems densely set with narrow blue-grey leaves 600.--
- Aethionema grandiflorum** (A. pulchellum)
Stone Cress, Burnt Candytuft, Persian Candytuft
013.24 Mount Elbrus*, a charming little, bushy plant with lovely, large flowers of a warm rose colour on numerous gently curving racemes 246.-- / 10 g
- Agapanthus praecox minimus** (A. umbellatus)
African Lily, Transvaal Lily, Lily of the Nile, Love Flower
013.40 Adelaide*, deep blue flowers in umbels in summer; graceful light green, sword-shaped leaves; an excellent variety for pots, tubs, and containers for conservatories 186.-- / 10 g
- Agastache aurantiaca**
Orange Hummingbird Mint
013.50 Sunrise*, apricot-orange spikes; richly fragrant foliage; very quick growing, excellent in bedding, borders and containers; flowers in the first year from seed; is best grown as an annual 314.--
- Agastache cana** (Cedronella c.)(A. astromontana)(Monarda a.)
Dwarf Nectar Hyssop, Lavender Mint, Mosquito Plant
013.60 Lucky Lady*, bright carmine-pink; rich flowering; very even plant habit 350.--
013.62 Purple Lady*, as the above but bright purple 450.--
- Agastache foeniculum** (A. anethiodora)(A. anisata)
Anise Hyssop, Licorice Mint, Agastache Fenouil, Anis Hysope, Hysope Anisée, Grande Hysope, Anisysop, Duftnessel, Koreanische Minze, Anijsplant, Anijsdropplant, Anijsnetel
013.80 Blue Spike, clear lavender-blue flowers in large spikes from early June til frost; leaves are strongly anise-scented and are used fresh or dry as a tea or seasoning; flowers produce abundant nectar and therefor it is an excellent- or wonder honey-plant; early and uniform 24.--
013.84 Snow Spike, white counterpart of the above 24.--
- Agastache pallidiflora ssp. neomexicana** (Cedronella n.)
New Mexico Hummingbird Mint, New Mexico Giant Hyssop, Droplant, Anijsnetel, Pachuli
014.00 Lavender Haze, tight spikes of lavender-pink flowers; stiff upright stems; silvery green foliage; lavender scented 432.--
- Agastache rupestris**
Rocky Honey Plant, Thread-leaf Giant Hyssop, Sunset Hyssop, Anise Hyssop
014.10 Burnt Orange*, pastel salmon-burnt orange flowers; distinctive, smoky grey-green foliage and stems; bushy and compact plants, which make them extremely useful for containers, pots etc. 98.-- / 10.000 sds
- Agastache wrightii**
Giant Hyssop, Texas Hyssop
014.20 Sonoran*, small whitish lavender flowers; the highly fragrant foliage has a hint of liquorice; the triangular grey-green leaves are usually not wrinkling upon drying p.o.r.
- Agastache x breviflora**
Nectar Hyssop, Liquorice Mint, Trans-Pecos Giant Hyssop
014.30 Bordeaux Magnifique*, beautiful, vivid wine-red or striking olden, vivid Bordeaux-red; monarda-like blooms with a very pleasant, fresh liquorice odour; upright spikes p.o.r.
014.34 Rosé Magnifique*, as the above, but vivid rose-pink, dotted rosy-red p.o.r.
- Agropyron magellanicum** (Elymus m.)
Magellan Blue Grass
016.80 Eleusis, leaves are erect to somewhat flattened and spreading, flat or folded, glabrous or puberulous, vivid blue-grey; it is grown for its unusual digitate panicles, which may be cut and dried before the inflorescence is fully developed; spikes become straw-yellow 144.-- / 10 g.
- Agrostis nebulosa** (A. tenuis)(A. vulgaris)(A. elegans)
Cloud Grass, Nebelgras, Wolke Gras, Struisgras, Udu-Kastehein
016.90 Species, hardy, annual flowering grass; very slender culms, which are glossy darkgreen. Inflorescence light and graceful, loose, broadly spreading with long branches and valuable for cutting for mixing with flowers in summer, or drying for winter decoration; it will grow in any ordinary soil in a sunny position; can be grown as a potplant as well. 36.--

	Agrostocrinum scabrum <i>Blue Grass Lily</i>	
017.00	Species, deep blue flowers; highly ornamental	354,--
	Ainsworthia trachycarpa <i>Lace Flower, Point d' Alencon, Alenconner Spitzen, Kantbloem, Umbelífera de Chipre e Israel</i>	
018.00	Nature's Art, white flowers in broad umbels; beautiful Ammi-like cut flower	128,--
	Aira elegantissima (A. capillaris)(A. elegans)(Agrostis algeriensis) <i>Hair Grass</i>	
018.10	Hapsilauha, loose tufts; branches spreading; delicate branchlets; dwarf	p.o.r.
	Ajuga genevensis <i>Blue Bugle</i>	
018.30	Species, blue, non trailing	220,--
	Ajuga reptans <i>Carpet Bugleweed, Common Bugle</i>	
018.40	Blue Carpet, dark blue flowers in summer; useful ground covering plant	430,--
	Albizia julibrissin <i>SilkTree</i>	
018.50	Species, terminal mop-like clusters of the pale pink stamens look like flowers; leaves divided; nice small tree	76,--
	Alcea ficifolia (Althaea ficifolia) <i>Fig-leaved Hollyhock, Perennial Hollyhock</i>	
019.00	Antwerp Stars, vigorous, rust tolerant plants of a bushy habit with distinct foliage and long spikes of beautiful, large, single, saucer-shaped flowers in the shade of yellow, copper, pink, red and white	22,--
	Alcea pallida (Althaea pallida) <i>Eastern Hollyhock</i>	
019.10	Species, delightful, yellow-centred, rosy lilac, shaded salmon; a beautiful, single flowered species	240,--
	Alcea rosea annua (Althaea rosea annua) <i>Double flowered, annual Hollyhock</i>	
019.20	Majorette, a dwarf variety with a bushy habit and large fully double, frilly flowers in a glorious and full colour range bringing a mass of colour in the garden	14,--
	Alcea rosea (Althaea rosea) <i>Chater's double flowered, biennial Hollyhock</i>	
019.50	Chamois, apricot-buff	32.60
019.52	Chestnut, chestnut-brown	32.60
019.54	Crimson, deep blood-red	32.60
019.56	Lavender, lavender-lilac	32.60
019.58	Moonlight, soft yellow	32.60
019.60	Pink, bright pink	32.60
019.62	Rose, deep rose	32.60
019.64	Salmon, clear salmon-pink	32.60
019.66	Scarlet, bright scarlet-red	32.60
019.68	Sunshine, golden yellow	32.60
019.70	White, pure white	32.60
019.74	Chater's Formula Mixture	32.60
	Alcea rosea nigra (Althaea nigra) <i>Black Hollyhock</i>	
019.80	Jet Black, single, almost black flowers	22,--
	Alcea rugosa (Althaea rugosa) <i>Caucasian Hollyhock</i>	
019.90	Species, long spikes with light yellow blooms; single flowered	240,--
	Alchemilla alpina <i>Alpine Lady's Mantle, Silbermantel</i>	
020.10	Yellow, small greenish of yellowish flowers in corymbs; the light green and kidney-shaped leaves bear on the under side and on their stems a beautiful silvery sheen; groundcover	60,--
	Alchemilla mollis (A. acutiloba) <i>Lady's Mantle</i>	
020.14	Thriller in Green*, lime-yellow; excellent for cutting	128,--

- Alchemilla xanthochlora** (A. vulgaris)
Dew Cup, Common Lady's Mantle, Alchémille, Pied de Lion, Manteau de Notre-Dame, Gemeiner Frauenmantel, Geelgroene Vrouwenmantel, Przywrotnik Zóltawozielony
- 020.18 Species, palmately-lobed or divided leaves and greenish or yellowish flowers in corymbs; the light green leaves bear on the under side and on their stems a beautiful silvery sheen; they have the power of condensing moisture from the air; the relatively large, yellow-green flowers are produced in dense corymbs and though individually inconspicuous are in the mass extremely decorative 200.--
- Alisma plantago-aquatica**
Great Water-Plantain, Mad Dog Weed, Gemeiner Froschloeffel, Grote waterweegbree, Plantain d'eau commun, Zbieniec Babka Wodna, Llantén de Agua, Alisma, Pan de Rana, Plantatge Aquàtic, Zain-belar, Tangachem-da-água, Frog's bit, Weybroed, Plantain d'Eau, Piantaggine Wegerich
- 020.30 Species, a flowering plant, native to most of the Northern Hemisphere, in Europe, northern Asia, and North America. It grows in shallow water, and consists of a fibrous root, several basal leaves 15-30 cm long, and a triangular stem up to 1 m tall, with a branched inflorescence bearing numerous small flowers with three round or slightly jagged, white or pale purple, petals 50.--
- Alliaria petiolata** (A. officinalis)(Sisymbrium alliaria)
Garlic Mustard, Hedge Garlic, Alliaire officinale, Herbe à l'ail, Knoblauchskraut, Knoblauchsrauke, Look zonder Look
- 020.40 Species, white flowers; garlic-scented pot-herb 26,--
- Allium flavum**
Yellow Leek, Yellow Onion
- 020.44 Species, loose umbels of small clear lemon-yellow flowers; attractive; can flower the first year from seed, when sown early; a very distinct little species with tight clumps of almost blue foliage 90.-- / 10 g..
- Allium nutans**
Blue Chives, Blue Garlic, Siberian Garlic Chives, Onion drooping, Knikkende Bieslook, Longus lauk, Nikkende løg, Gräslök, sibirisk
- 02046 Species, nodding buds (hence the name nutans); lilac-blue, scented flowers, completely spherical and with a pincushion effect because of the long exerted stamens; the stems are strongly "winged", leaves are flattened; beautiful pink, edible bulbs 56.-- / 10 g
- Allium ramosum** (A. odorum)
Chinese Chives, Flowering Onion, Ornamental Leek, Fragrant-flowered Garlic, Fragrant Onion, Siberian Onion, Chinesischer Schnittlauch, Zierlauch, Chinesischer Lauch, Schnittknoblauch, Tuoksulaukka, Doftlök, Ja löhnav Lauk
- 020.48 Species, this rhizomous variety of onion from Central Asia, produces 50 cm long leaves and very fragrant white flowers with red markings during mid-summer. 110.--
- Allium sphaerocephalum**
Drumstick Garlic, Round-headed Leek
- 020.52 Drum Majorette, plum-shaped, reddish-wine-purple flowers on thin stems 140,--
- Allium tuberosum** (A. angulosum)(A. senescens)
Chinese Chives, Garlic Chives, Chinese Leek, Flat Chives, Flowering Chives, Ciboulette ail, Ail Chinois, Chinesischer Schnittknoblauch, Chinese Bieslook, Knoflookbieslook, Knolau, Kinesisk Gräslö, Kinalög, Kinapurlög, Kinesisk Purlög, Schnitt-Knoblauch, Kantlök, Kinagresslök, Kiinanruhosipuli, i Kiinansipuli, Ail tubéreux, Ciboule de Chine, Cive chino, Mugullauk
- 020.54 Kau tsoi, nira, almost evergreen dark green foliage; white flowers are born on an erect, solid somewhat angular-shaped scape; the unusual flat-leaved chives do have a strong garlic flavour; leaves are harvested when about 20 cm in length, young scapes and flower buds are also eaten, scapes are harvested when 30-40 cm in height and while flower buds are still green and closed. 14.--
- Allium ursinum**
Ramsons Wood Garlic
- 020.60 Species, a wild flower bearing in spring loose umbels of up to 20 pretty, white star-like flowers. A useful plant for naturalizing in woods and the like, which, given half a chance, it will carpet eventually completely 72,--
- Allium vineale**
Wild Garlic, Field Garlic, Scallions, Wild Onion, Crow Garlic, Kraailook
- 020.70 Species, flowers are greenish-white, small, and on short stems above the globe of aerial bulblets; hollow, round leaves, bulblets are an egg-shaped 3-parted capsule 28,--
- Allium x jajlae** (Allium scordoprasum ssp. Jajlae)
Broad Ligulate Leek, Breed Lintlook, Breitbandlauch
- 020.80 Gourmet Leek*, beautiful rose-violet flowers in small round heads during summer; flat, thick fleshy leaves with a soft, garlic taste; far better than the well-known Chinese leek p.o.r.

- Aloe ferox** (A. supralaevis)
Cape Aloe, Tap Aloe, Kap-Aloe, Bitteraalwyn, Bitter Aloe
020.90 Species, the complex inflorescence is branched into racemes. tightly packed with numerous flowers, which are orange-red, yellowish or white; tubular in shape with the style and stamens protruding from of the flower; attractive succulent; adapts well to home or greenhouse environment 258.--
- Alonsoa acutifolia**
Mask Flower
021.00 Orange Hedge, lax clusters of spurred, orange flowers; a bushy, strong-growing plant with broad pointed leaves 280.--
- Alonsoa meridionalis**
Mask Flower
021.04 Funky Hedge*, funky orange-red; hedging type 280.--
- Alonsoa unilabiata** (Diascia u.)
Darth Vadar Flower
021.08 Vampire in a Pink Bonnet, dark salmon-pink flowers have dark centers with two vivid yellow green "eyes" and dark "fangs"; all of which give it the appearance of an evil face p.o.r.
- Alopecurus pratensis**
Common Foxtail Grass, Meadow Foxtail, Lamb's-tail Grass
021.12 Foxyfox, smooth upright culms, which are clump-forming; leaves are flat and the panicles cylindrical, dense, pale green, often tinged purple; quite attractive 18.--
- Alstroemeria ligtu**
Peruvian Lily. St. Martin's Flower
021.20 Dr. Salters' New Hybrids, pastel shades ranging from salmon-pink, apricot, cerise to deep red 74.--
- Alternanthera denticulata**
Lesser Joy weed
021.30 White, cylindrical to globe-shaped heads, on stalks of 9 cm long, that are papery to touch; half-hardy shrubby perennial used for carpet bedding 90.-- / 10 g
- Althaea** see Alcea
- Alyogine hakeifolia**
Red-centred Hibiscus
021.34 Exotic Saucers*, soft pink; red centered 228.--
- Alyogine huegelii**
Purple or Blue Hibiscus
021.38 Shining Saucers*, shining, bluish mauve 212.--
- Alyssum annual varieties** see Lobularia maritima
- Alyssum repens**
Creeping or Mountain Madwort
021.76 Crawly Creeper*, bright yellow; abundantly flowering during May and April; far more floriferous than the A. saxatile and A. montanum; a dwarf and compact growing Alyssum, ideal for bedding 330.--
- Alyssum sinuatum**
Sinuuous Madwort
021.90 Pebbles*, light yellow; grey foliage; ornamental seedpods 250.--
- Amaranthus caudatus gibbosus**
Giant Love-lies-Bleeding, Trompa Elefantului, Discipline de Religieuse, Rispenfuchschwanz
024.10 DreadLocks, bloodred flower clusters drooping in long terminal pony tail-like panicles 25.--
- Amaranthus paniculatus** (A. hybridus paniculatus)(A. cruentus paniculatus)
Amaranth, Velvet Flower
024.40 Festival Feathers*, fresh green leaves, which later on slowly are becoming darker and even dark red. The feathers are fresh and light green as well, but with bright red amaranth-coloured top ends 66.--
- Amaranthus tricolor** (A. melancholicus)(A. gangeticus)
Chinese Spinach, Foliage Amaranth, Tampala, Klaroen
025.80 Garden Select*, cream, yellow, bright red, rosy-red, orange and dark red; early colouring 78.--
- Amaryllis hippeastrum** see Hippeastrum hybridum

- Amethystea caerulea**
Indian Gems, Amethystie
026.20 BluQuartz, dense heads of bright lavender-blue flowers, which open out of deep blue buds; a good-sized, bushy annual with dark stems and delicate, sweet-smelling foliage in a deep chestnut-like shade overlaid with a metallic-blue glow 68,--
- Ammobium alatum grandiflorum nanum**
Dwarf Everlasting Sand Flower, Sand- or Winged Immortelle, Immortelle des Jardins d'Australie
027.10 Pearly Drops*, large flowered white, yellow centered; extra dwarf 420,--
- Ampelodesmos mauritanicus**
Rope Grass
027.30 Species, stately grass; lofty, upward and arching stems race skyward, asserting mostly one-sided pearl-coloured panicles above a dark green clump-forming mound; airy purple-flushed inflorescences 498,--
- Anacyclus depressus compactum** (A. pyrethrum var. depressus compactum)
Mount Atlas Daisy, Ringblume, Atlas-Kamille, Zwergmagerite, Bertram Ringkörbchen
027.50 Silver Pygmy, myriads of small, white daisy-like flowers, underneath the rays are red; ferny, silvery foliage; a very pretty rock garden plant from Maroc, quite an improvement over the species! 192.--/ 10 g
- Anagallis arvensis**
Cure All, Poor Man's Weather Glass, Mouron rouge, Roter Gauchheil, Ackergauchheil, Guichelheil
027.60 Scarlet Pimpernel, true wild form with the pretty, slender-stemmed, scarlet flowers; they are open only when the sun shines; their habit of closing in dull weather has given the plant the name "poor man's weather-glass." 42,--
- Anagallis monellii ssp. linifolia** (A. collina)(A. linifolia)(A. grandiflora)
Blue Pimpernel
027.70 Blue Noon*, azure-blue flowers; lush green foliage; a beautiful, large flowered variety 50,--
- Anaphalis triplinervis**
Pearly Everlasting, Siberian Edelweiss
027.80 SummerSnow*, pointed, shiny white bracts radiating outwards from the tiny disc; rather lax stems with numerous pale grey-green leaves. SummerSnow is dwarfer than the species 174.-- / 10 g
- Anchusa azurea** (A. italica)
Italian Bugloss, Perennial Bugloss, Buglosse d'Italie, Italienische Ochsenzunge, Italiaanse Ossentong, Large Blue Alkanet, Lsien il-fart ikhal, Buglosa, Lengua de buey
027.90 Dropmore Variety, a rather fine perennial for the back of the border with very long narrow, shining leaves and bearing in summer large panicles of lovely, brilliant ultramarine-blue flowers 80.-- / kg
- Anchusa capensis**
Cape Forget-Me-Not, Summer Forget-Me-Not, Cape Bugloss
027.92 Blue Angel, marine-blue; very free blooming; uniform 116.-- / kg
- Andrographis paniculata**
Indian Echinacea, Quasabhuvu, Oli-kiryata, Kalmegh, Bhunimba, The Creat, Naine-havandi, Kariyatu, Kalmegha, Bhunimba, Kirayat, Nilavembu, Nelaberu, Nilavembu, Nelavepu, Kiriayattu, Sambiloto, Melayu, Bumi or Pokok, Cerita
027.96 Species, an annual plant with characteristic white, purple spotted, flowers; it grows erect to a height of 30-110 cm in moist shady places with glabrous leaves; widely cultivated in southern Asia, where it is used to treat infections and some diseases, often being used before antibiotics were created; mostly the leaves and roots were used for medicinal purposes 198,--
- Andropogon gerardii**
Big Bluestem, Turkey Foot Bluestem
028.00 Species, blue-green leaves, stunning orange to maroon fall colour 98,--
- Andropogon saccharoides**
Silver Beard Grass
028.04 Species, bright green leaves turn orange in the fall; shimmering appearance in late summer when the fluffy white seedheads emerge 74,-- / 1.000 sds
- Andropogon scoparius** (Schizachyrium s.)
Little Bluestem, Bunch Grass, Prairie Grass
028.08 Species, a hardy perennial, ornamental flowering grass with blue-grey or foliage turning copper-red in autumn and rich golden-orange by winter; strong stems, clumped, slender and above branched 25,--
- Anemanthele lessoniana** (Stipa arundinacea)
Rainbow Grass, Gossamer Grass, Fasanenschwanzgras

- 028.40 Species, beautiful, arching grass with strands of glimmering ruby-red shining through the lime-green
swards; spectacular when waving in the breeze like 'angels' hair' or grown as a specimen in the
border or a container 744,--
- Anemocarpa podolepidium** (Chrysocephalum p.)
Rock Everlasting
- 028.48 Species, terminal, woolly heads, yellow florets; grey-green, felty leaves 180,--
- Anemone nemorosa**
*Wood Anemone, Spring Anemone, Bosanemone, Buschwindroeschen, Vitsippa, Kvitsymre, Hvid
Anemone, Valkovuokko*
- 028.50 Sylvie, one of the greater delights of shade gardening; flowers with soft blue cups and outside
reddish blooms over dark green cleft leaves; little twig-like, brittle rhizomes that creep and multiply
rapidly beneath the surface of woody soil 96,--
- Anemone ranunculoides**
Yellow Wood Anemone, Gelbes Windroeschen
- 028.52 Species, an attractive species with in spring long-stalked, canary-yellow flowers 112,--
- Anemone rivularis**
Chinese Wind Flower
- 028.54 Grace, bowl-shaped flowers are waxy white and have a blue reverse on the outside and purple
anthers; fibrous roots and dark green, broad, and rounder foliage than most of the anemones 212,--
- Angelica archangelica** (Angelica officinalis)
Angelica, Archangel, Holy Ghost, Wild Parsnip, Engelwurz, Grote Engelwortel
- 028.56 Species, bold plant with a large greenish white umbel; compound leaves; a hollow stem and a long
thick fleshy root; stems have a flavour similar to liquorice 11.40
- Angelica sylvestris**
*Wild Angelica, Angélique des Bois, Waldengelwurz, Gewone Engelwortel, Strätta, Sløke, Angelik,
Karhunputki, Geithvönn*
- 028.58 Species, broad, double-finned leaves; the stem is coarse, tubular and violet at the bottom, with broad
leaf shafts; at the top the stem has fine hairs; flowers are green-white 20,--
- Angianthus tomentosus**
Camel Grass
- 028.60 Species, terminal clusters of pale yellow flowers 230,--
- Anigozanthos flavidus**
Tall Kangaroo Paw; Evergreen Kangaroo Paw
- 029.00 Red flowers; they occur in clusters on tall, branched stems, which emerge from the bases of the
leaves 320,--
- 029.04 Yellow flowers; the typical colour of the flowers is a pale greenish-yellow 282,--
- Anigozanthos gabriellae**
Wallaby Paw, Red-cheeked Gibbon
- 029.08 Species, flowers are red and green with variants of all red flowers; flowering stems are only between 5
to 15 cm tall; makes an annual, flowering plant 136,-- / 10 g
- Anigozanthos humilis**
Quoll's Paw, Cat's Paw
- 029.12 Species, colour varies from predominantly orange with patches of yellow and visa versa; flowering
stems can be 15 to 60 cm; a small short-lived species 56,50 / 10 g
- Anigozanthos manglesii**
Red & Green Paw
- 029.16 Species, natural colour variants include green with a yellow base, entirely orange, bright yellow with
a red base, metallic blue with a red base and an all white form has been reported; the best known of
the K/Paws; one of the easiest species to germinate from seed and within eighteen months it is
possible to produce a plant with 40 to 50 stems of flowers 300,--
- Anigozanthos preissii**
Albany's Cat's Paw
- 029.20 Species, flowers are terminal with very little colour variation light orange/yellow with a red base; the
largest flower of all the Kangaroo Paws 140,-- / 10 g
- Anigozanthos rufus**
Red Kangaroo Paw
- 029.24 Species, flower colour is consistently an outstanding dark red; a good species for cultivation with
long & strong flower stems 148,-- / 10 g

Semi-dwarf Snapdragons

030.50	Black Prince, delightful, near black, velvety crimson; dark foliage	44.--
030.52	Dazzler, orange-scarlet, very bright colour	18.--
030.54	Nelrose, bright pink	18.--
030.56	Nigh & Day, near black, velvety crimson with silvery throat; dark foliage	116.--
030.58	Royal Rose, deep rose	18.--
030.60	Welcome, deep crimson	18.--
030.62	Formula Mix of the above mentioned colours	38.--
030.64	Circus Clowns, jolly mixture of all bicoloured varieties	116.--
030.66	Midnight Mixture, shades of sultry dark reds, crimsons, maroons, purples and bright scarlet	116.--
030.68	Rusty Shades*, beautiful warm colours	98.--
030.70	Torbay Rock*, variegated flowers; exotic striped and mottled bi-colours	98.--
030.72	Trumpet Serenade, butterfly-type flowers in good colour range	48.--

Antirrhinum majus pumilum

Dwarf Snapdragons

032.30	Emerald Isles*, a beautiful colour blend of dwarf snaps for hanging baskets, pots, containers and rockeries, having a trailing or creeping growing habit; flowering - it's unbelievable - all summer and every plant is a small isle at itself, treasuring surprisingly coloured summer shades and moreover a lovely sweet scent; just take the Calves' Snouts away and the flowering outburst will be extended until frosts. extremely dwarf, rich- and long flowering mix of colourful emeralds	62,40
032.46	Trumpet Voluntary, very colourful dwarf bedding mixture of open, freesia flower-like or trumpet-shaped snapdragon-types	76,50

Antirrhinum nuttallianum ssp. nuttallianum

Nuttall's Snapdragon, Purple or Violet Snapdragon

032.50	Blue Mist*, very small blue-purple flowers with white lips; slender stems; mounding habit; long season	p.o.r.
--------	--	--------

Antirrhinum sempervirens

Silver Snapdragon, Evergreen Snapdragon, Fragrant Granny's Bonnet

032.58	White Rocks, white flowers striped soft lilac; evergreen foliage	896.--
--------	--	--------

Antirrhinum siculum pendulum

Sicilian Snapdragon

032.62	Rocky Isles*, yellow hanging basket type; rich flowering	p.o.r.
--------	--	--------

Aquilegia fragrans

Fragrant Columbine

034.20	Blue, palest blue; large flowers; apple-scented; bluish green foliage	192.-- / 10 g
--------	---	---------------

Aquilegia nigricans

Black Columbine

034.30	Balcany Black, very large, dark purple flowers with stout, hooked spurs	250.-- / 10 g
--------	---	---------------

Aquilegia skinneri

Bicoloured Columbine

034.50	Tequila Sunrise, orange and gold, long-spurred flowers, blooming the first year from an early sowing	25.-- / 1.000 sds
--------	--	-------------------

Aquilegia viridiflora

Green-flowered Columbine, Caramel & Chocolat, Chocolate Columbine

034.70	Chocolate Drop, a fascinating columbine with dainty foliage and the small, but interesting flowers coloured green, with maroon corollas that have a sweet, delicate scent	25.-- / 1.000 sds
--------	---	-------------------

Aquilegia vulgaris

Common Columbine, Garden Columbine, European Crowfoot

035.20	Mellow Yellow*, the golden foliage aquilegia to come almost 100% true from seed; the new foliage appears to glow in a shaded spot, the white or pale milky blue flowers being just a further bonus	768.--
--------	--	--------

Arabidopsis thaliana (Sisymbrium t.)Stenophragma t.)

Thale Cress, Mouse-eared Cress, Arabette de Thalius, Schmalwand, Zandraket, Kersjeskruid

035.30	Aresa, a small, white flowering plant which is widely used by plant science researchers as a model organism to study plant developmental processes; rapid life cycle (about 5 weeks from seed to seed)	23.--
--------	--	-------

Arabis androsacea

Wall Cress, Rock Cress

036.80	Tourelle*, white, large flowered; grows well in containers, tubs, pots etc.	p.o.r.
--------	---	--------

Arabis blepharophylla

- 098.30 *Bluebell of Scotland, Blue Bells, Harebell, Rundblaeettrige Glockenblume*
Blue, the pretty British harebell produces thin wiry stems of nodding or drooping pale blue flowers; an easy, charming, wide-spread, variable plant for rockery, border etc. 130.--
- Campanula takesimana**
Korean Bellflower
098.40 Mascot*, creamy white to lilac-pink outside and dark purple-brown, dotted inside; large bell-like flowers 384.-- / 10 g
- Campanula trachelium ssp. urticifolia**
Nettle-leaved Bellflower, Nesselblaeettrige Glockenblume, Nässelklocka
098.44 "Lilac Bells", many-flowered panicles of lilac-blue, broadly bell-shaped blooms; rich flowering; erect growing habit 122.00
- Campsis radicans**
Trumpet Vine, Trumpet Creeper, Cow-Itch Vine, Enredadera de Trompeta, Jazmín de Virginia, Bignonia roja, Trompeta trepadora, Trompetilla, Trompetbloem
098.50 Species, scarlet and orange trumpet-shaped flowers in terminal clusters 18.--
- Canavalia maritima (C. rosea)**
Beach Bean, Bay Bean, Wild Jack Bean
098.60 Species, showy pink or white flowers; outstanding erosion control; salt tolerant 54.--
- Canna indica (C. x generalis)**
Indian Shot, Saka Siri, Bandera, Chancle, Coyol, Platanillo, Indisch Bloemriet
098.70 Crozy's Colour Carnival, collection of large flowered varieties; wide colour range 16.--
- Capparis spinosa**
Caper, Cappero, Alcaperro, Kaper, Kappertjes, Caper Berry, Caperbush, Kápari, Tapèra
098.90 Species, large white flowers with purple filaments; dwarf shrub with large blue-green foliage; the unopened flower buds are the primary product 552.--
- Capparis spinosa nummularia**
Fragrant Caper Bush, Merne Arrutnenge, Coastal Caper, Bush Passionfruit, Australian Caper Bush
098.94 Fragrancy*, like C. spinosa, but the splendid white flowers are fragrant 212,50
- Capsicum annuum**
Ornamental & Hot Pepper
099.00 Balloon, strangely unique bell-shaped fruits with flat square-tipped wings; hot (4) 600.--
Candlelight, dwarf plants completely covered with thin tapered fruits; borne in clusters; ripening from green to yellow to orange to brilliant red; nice for containers; hot (2) 420.--
- 099.10 Chinese Ornamental, literally hundreds of fruits per plant; tiny long fruits ripening from green to red; holding on the plants for an extended period; great for pots; hot (4) 560.--
- 099.20 Fish, beautiful green and white variegated foliage; pendant fruits ripening from cream with green stripes to orange with brown stripes to all red; perfect for salsa; hot (3) 420.--
- 099.30 Goldfinge*, light yellow counterpart of Orange Wonder; very attractive because distinct difference with other varieties; hot (3) 80.--
- 099.40 Lemon Drop, bright yellow, conical crinkly fruits; very few seeds; plants are covered with fruits; citrus flavour; hot (4) 600.--
- 099.50 Nepalese Bells, fruits have thin crisp flesh that ripens from green to red; sweet around the outer edges, but hot near the seeds; will completely dry on the plants; hot (3) 600.--
- 099.60 Nosegay, unbelievable small ornamental pepper with foliage that looks like bay leaves; tiny plants are spectaculare grown in the border in of the garden or in window boxes; ripe fruits hold well for weeks; fruits are edible, but hot, and display a rainbow of colours while ripening; hot (3) 420.--
- 099.70 Orange Wonder*, bushy plants covered with cone-shaped bright orange fruits; hot (3) 80.--
- Cardamine pratensis**
Cuckoo Flower, Ladies' Smock, Mayflower, Cardamine des Prés, Wiesenschaumkraut, Pinksterbloem, Rzezucha Lakowa, Ångsbräsm, Engkarse, Engkarse (ssp. pratensis), Luhtalitukka, Hrafnaklukka
099.90 Species, showy lilac flowers in corymbs; will please everybody 255.--
- Cardiocrinum giganteum (Lilium giganteum)**
Giant Yunnan Lily, Giant Himalayan Lily, Riesenlilie, Riesen-Himalayalilie, Reuzenlelie
100.00 White Giant, the all superlatives lily; a stately plant grown for their striking display; a 5 cm thick stem, with dinner plate sized leaves, supports numerous green and white, waxy, very delicious scented trumpets, each 15 cm long. 500.--
- Cardiospermum halicacabum**
Love-in-a-Puff, Balloon Vine, Heart Pea, Heart Seed, Kanphuti
100.10 Species, an exceedingly graceful and dainty climber and yet a strong grower; inflated seed-pods, 20.--

which are also useful in indoor decorations; attractive for covering trellis-work, chain link fencing and the like; when during the summer their dense, feathery foliage, forms an unusual, ornamental screen

- Carex acutiformis**
Lesser Pond Sedge, Swamp Sedge, European Lake Sedge, Laïche des Marais, Sumpf-Segge, Scharfkantige Segge, Moeraszegge, Turzyca Blotna, Brunstarr, Stautstorr, Kaer-Star,
100.14 Species, this is a plant for the larger pond, although it can be contained in a pot, and it won't grow so tall; it spreads to form a very dense clump; quite happy in wet soil 124.--
- Carex appressa (C. virgata)**
Tall Sedge
100.20 Species, a most effective sedge grown for its long spikes of dark flowers 82.--
- Carex comans**
New Zealand Hairy Sedge
101.24 Bronze Form, densely tufted, brown-red clumps; stems glabrous and drooping in fruit; spikes are becoming longer-stalked lower down the stem and are light brown to red-brown. 122.-- / 10g
- Carex flacca (C. glauca)**
Glaucous Sedge, Blue Sedge, Laïche Glauque, Blaugrüne Segge, Zeegroene Zegge
101.26 Species, this tough sedge can be grown in any place; often found in full sun, but it will do well in the shade too; suitable for the rockgarden and excellent as a groundcover; used for erosion control 120.--
- Carex grayi**
Gray'Sedge, Mace Sedge, Morning Star Sedge
101.28 Species, a clump-forming species with broad, flat, wide, pale green leaves; bracts are leaf-like with exceeding inflorescence; the female spikes are around, resembling a mace; decorative seed heads 158.--
- Carex leporina (C. ovalis)(Vignea leporina)**
Mountain Hare Sedge, Brown-head Sedge, Dunhead Sedge, Egg Sedge, Eggbract Sedge, Hasenpfotensegge, Hasen-Segge, Hasenfuß-Segge, Hazezegge, Hare-Star, Zaku Grisliis
101.30 Species, wintergreen sedge, erect to decumbent; inflorescence narrow, erect, 2-4 cm long, with 2-9 spikes erect to spreading at maturity; glumes long-acute, yellow-brown with pale margins 94.--
- Carex muskingumensis**
Palm Sedge
101.32 Species, upright stems and very numerous leaves crowded on the stems; tall stems clothed with narrow, arching, dark green leaves; fine as a solitaire on the waterside or in large pots 320.--
- Carex pendula (Carex maxima)**
Weeping Sedge, Pendulous Sedge, Drooping Sedge, Haenge Segge,
101.36 Species, tuft forming plants; the leaves are keeled, flat yellow-green above, somewhat glaucous beneath; the lower sheaths are red-brown; bracts are leaf-like, as long as arching inflorescence; the cylindrical spikes are becoming pendulous and red-brown 58.--
- Carex pseudocyperus**
Bastard Cyperus, Scheinzypergras-Segge, Cyperzegge
101.38 Species, bright green 96.--
- Carex remota (Vignea remota)**
Remote Sedge, Winkelsegge, Laiche à épis espacés, IJle Zegge, Wijdarige Zegge, Turzyca Odlegloklosa, Ostrice Rídkoklasá, Ostrica Oddialená, Skärmstarr, Järvseljä, Retavarpe viksva,,Akselblomstret Star
101.40 Species, bright green tussocks 112.--
- Carex sylvatica ssp. sylvatica**
Wood Sedge, European Woodland Sedge, Laïche des Bois, Waldsegge, Boszegge, Turzyca Lesna, Skov-Star, Skogsstarr, Skogstorr
101.42 Species, a well-known ancient woodland species with a long-term persistent seed bank and a caespitose growth habit 128.--
- Carex tereticaulis**
Common Sedge
101.44 Species, brown flowering spikes, on ends of stems; leaves can be finely split and made into baskets 160.--
- Carex vulpina**
True Fox Sedge, Laïche des Renards, Echte Fuchssegge, Voszegge, Rävstarr, Revestorr, Ræve-Sta, Ketunsara
101.48 Species, a species of wet ditches and pond sides mainly on chalk or limestone, and often grows in standing water; it prefers open conditions and under shade it soon ceases to flower 80.--

121.04 Strawberry Sticks, ornamental highly-coloured fruited calyxes, placed at the foot of the leafstalk, suggestive of little strawberries 66,--
- Chenopodium giganteum**
Tree Spinach, Magentaspreen, Lamb's Quarter, Riesengänsefuß, Baumspinat, Boomspinazie
121.08 Species, the leaves of this plant are a striking combination of lilac, purple and shimmering magenta, turning blue-green as the leaves age; this plant always elicits comments; a nice and tasty addition to salads and a colourful garnish or steamed like spinach 98,--
- Chloris truncata**
Star Grass, Windmill Grass, Australian Fingergrass, Truncate Finger Grass, Antennegrass
121.40 Tellymasts*, leaves are flat or folded; horizontal or reflexed; in containers, boxes pots etc.; easy from seed 198,--
- Chrysanthemum alpinum** (*Leucanthemopsis a.*)(*Tanacetum a.*)(*Pyrethrum a.*)
Alpine Moon-Daisy, Alpine Marguerite, Alpenwucherblumen
121.90 Glacier*, brilliant white, golden eyed flowers; neat, small tufts of deeply cut bright green foliage 48,-- / 1 g
- Chrysanthemum caucasicum** (*Matricaria c.*)(*Tripleurospermum c.*)
Armenian Daisy
122.00 Ararat, a conspicuous plant with long and strong stems; nevertheless it is recommendable to plant near a rather strong shrub-like plant or even in the middle or close to the center of a plant; the result is a strong and always upright combination of which Ararat delivers a snow-storm of small white chamomille-like flowers. A show! p.o.r.
- Chrysanthemum cinerariifolium** (*Pyrethrum c.*)(*Tanacetum c.*)
Dalmation Insect Flower, Dalmation Pellitory, Dalmatinische Insektenblume
122.50 Dalmatia, flowers of immaculate whiteness on top of wiry stems; contrasting leaves and stems because of their fine grey colour 238,--
- Chrysanthemum corymbosum multiflorum** (*Tanacetum corymbosum ssp. corymbosum*)
Woodland Daisy, Leucantheme a feuilles de Coronope, Rainfarn Dolden Straußblütige
122.70 Blaze of Daisies*, multi-flowered stems of showy white daisies, in corymbs, being flat-topped; a good garden plant and outstanding cut flower; lasting long on water 192,--
- Chrysanthemum frutescens** (*Argyranthemum frutescens*)
Paris Daisy, Shrubby Marguerite, Marguerite Daisy, French Marguerite
122.74 La Parisienne ou Marguerite de Valois; plentifully pure white blooms, contrasting with the glaucous foliage; excellent for barrels, boxes, containers, pans, large pots and tubs 98,--
- Chrysanthemum indicum** (*Dendranthema i.*)
Chrysanthème d'Automne, Herbst Chrysantheme, Herbstchrysanth
122.80 Mixed colours, rich coloured single, semi-double and double flowered mixed 86,--
- Chrysanthemum lacustre** (*C. maximum*)(*C. superbum*)(*Leucanthemum s.*)
Portuguese Daisy, Pyrenees Daisy, Double Daisy, Jätteprästkraze
123.00 Marion Collier*, creamy white with a yellowish centre; carefully selected variety with a high percentage of fully double and semi-double daisies with quilled petals 64,--
- Chrysanthemum leucanthemum** see *Leucanthemum vulgare*
- Chrysanthemum maximum** see *Leucanthemum maximum*
- Chrysanthemum multicaule** (*Coleostephus m.*)
Buttercup Daisy, Yellow Clump Daisy, Daisy Yellow Button
124.00 Moonlight, a unique cool lemon-yellow colour 108,--
124.10 Sunlight, masses of golden yellow daisies 30,--
- Chrysanthemum myconis** see *Coleostephus myconis*
- Chrysanthemum nivellei** Braun-Blanq & Maire (*Nivellea nivellei*)
Moroccan Daisy, Grand Marguerite blanche annuelle
124.40 Garden Globe*, white flowers with golden centres; stems are both down- and sideways spread and are so giving the impression of a fully rounded off, ball-shaped, bushy white globe 26,--

- Clarkia speciosa** (*Godetia speciosa*)
Redspot Fairyfan, Four-Spotted Clarkia, Winecup Clark, Redspot Clarkia, Pismo Clarki
- 135.80 Pink Buttercups, red-eyed, pink buttercup blooms; carpets of narrow foliage; ideal for borders and as a groundcover 264,--
- Clarkia speciosa ssp. immaculata**
Four-Spotted Clarkia, Winecup Clark
- 135.84 BicShow*, large, bright rosy-red and rosy-mauve shades with striking white centres 78,--
- Claytonia sibirica** (*Montia sibirica*)(*Claytonia s.*)(*C. alsinoides*)
Siberian Spring Beauty, Pink Purslane, Siberian Miner's Lettuce, Roze Winterpostelein
- 135.90 Peppermint Candy*, pink white striped; bright green succulent, edible leaves 192,-- / 10 g
- Clematis alpina**
Columbine Clematis, Clématite Alpine, Alpen-Waldrebe, Bosrank
- 136.00 Blue Charm, drooping flowers of exquisite light purple; the first clematis to flower in spring; ultra hardy and rapid grower for walls and fences as well 96,-- / 10 g
- Clematis aristata**
Old Man's Beard, Travellers Joy, Austral Clematis
- 136.04 Species, smothered in masses of white starry flowers; easily grown from seed 124,--
- Clematis chiisanensis**
Lemon Bells Clematis, Korean Clematis
- 136.06 Love Child, pale yellow bells, reddish at base; quick to flower 54,-- / 10.000 sds
- Clematis flammula**
Fragrant Virgin's Bower, Baby Clematis, Clématide odorosa, Jazmín deMonte, Mandelwaldrebe
- 136.08 Sweet Plume, small 'twinkling' star-like, white flowers, in panicles, cascading down the plant; powerfully and delightfully smelling of vanilla; the feathery, silvery seed-heads are decorative after the flowers have passed 256,--
- Clematis glycinoides**
Forest Clematis, Headache Vine
- 136.12 Species, starry white or greenish flowers; very showy in bloom; pretty fruits 140,--
- Clematis heracleifolia davidina** (*C. tubulosa*)
Tube Clematis, Chinese Clematis, Großblättrige Waldreben, Klimopbladbosrank
- 136.14 Blue Tubulus, a herbaceous clematis - one of the non-vining - whose soft violet-blue flowers have a deliciously sweet scent; tubular, long flowers with recurved petal tips resemble those of a hyacinth and appear in whorls up the stems in late summer; dark foliage; makes a good clump 90,-- / 10g
- Clematis ladakhiana**
Sweet Autumn Virgin's Bower, Asian Virginsbower, Clématite Tibetaine, Clématite du Tibet
- 136.18 Tibetan Mystic, vigorous climber with abundant brownish-yellow flowers the very first year 58,-- / 10.000 sds
- Clematis microphylla** (*C. linearifolia*)
Fine- or small-leaved Clematis
- 136.22 Species, greenish-cream flowers followed by conspicuous fruits 158,--
- Clematis pubescens**
Western Clematis, White Clematis, Common Clematis
- 136.26 Species, short panicles of white flowers; showy long silvery tails to the seeds 124,--
- Clematis recta**
Non-Vining Clematis, Ground Clematis, Clématite droite, Aufrechte Waldrebe, Stijve Clematis,
- 136.30 Species, upright stems with terminal many-flowered panicles of scented white flowers 96,--
- Clematis recta purpurea**
Non-Vining Clematis, Erect Clematis, Clématite droite, Aufrechte Waldrebe, Bosdruij
- 136.34 White Myriads, terminal many-flowered myriads or panicles of small, scented, creamy white flowers and glossy, purple tinged foliage; a beautiful and light fragrant variety 384,--

Dwarf Spider Flower, Single-leaved Cleome, Spinnenpflanze, Rusperbossie, Ueühelehine ämbliklill
137.60 Spirit*, pure white; non-prickly; starts flowering with a central flowerhead and will later on be surrounded by many side branching and top flowering blooms 48,--
- Cleome viscosa** (Polansia v.)
Sticky Cleome, Australian Spider Flower, Wild Mustard
137.74 Yellow Spider, yellow; wide flowers in long racemes; each flower has numerous contrasting stamens, which produce an interesting effect; a semi-dwarf growing species and a quite pretty and unusual bedding plant, as well as a beautiful pot-, tub-, and patio plant 140,--
- Clianthus formosus** see Swainsonia formosa
- Clinopodium calamintha** see Calamintha nepeta
- Clinopodium vulgare** see Calamintha vulgare ssp. arundanum
- Clitoria ternata**
Butterfly Pea, Pigeon Wings, Blue Pea, Blue Vine, Blue Butterflies, Schmetterlingserbse
138.00 Marina, produces masses of double flowers of a beautiful shade of vivid cobalt blue with a white and gold throat all summer long; a beautiful twining vine; easy to grow from seed, blooms the first year 238,--
- Clivia miniata**
Kaffir Lily, Bush Lily, St. John's Lily, Fire Lily
138.10 Orange, compact; short leaves 520,-- / 1.000 sds
- Cobaea scandens**
Cathedral Bells, Cup & Saucer Vine, Glockenrebe, Klokwinde, Kelloköynnös, Klockranka
138.70 Alba, white; a showy climber for the cool greenhouse, conservatory, and also forming a very decorative screen on trellis or south facing wall in milder areas; large bell shaped 'cup and saucer' flowers are often 6cm (2.5 in) across; flowers late summer; climber. 38,--
138.74 Caerulea, violet-blue; as the above 28,--
- Codonopsis clematidea** (Glossocomia c.)
Asian bellflower, Bonnet Bellflower, Tigerglocke, Tijgerklokje, Lamopeikonkello
138.80 Blue Bonnets, attractive, light blue, nodding bells with darker centres; a sprawling twiner 202,--
- Codonopsis pilosula**
Poor Man's Ginseng, Korean Ginseng, Bastard Ginseng, Glockenwinde, Tojin, Tangsam, Dong Sam
138.90 Dan Sheng, magnificent flowers in the form of small bells and the colour is yellowish-olive green, purple veined; climber 98,--
- Coffea arabica**
Coffee Tree, Arabian Coffee
138.94 Nana, stove evergreen shrub; potplant with glossy green foliage. 20,-- / 1.000 sds
- Coix lacryma-jobi**
Job's Tears, Japanese Barley, Hato-mugi
138.98 "Yi Yi", delicate corn-like plant with grey teardrop-shaped seeds on top of tassel, ranging from pearly white to shiny grey; grown since the 14th century by monks for rosary beads 140,--
- Colchium autumnale**
Meadow Saffron, Autumn Crocus, Colchico, Herbstzeitlose, Herfstijloos, Tidlösa
139.00 Species, showy lilac flowers, produced after the leaves die down 28,--
- Coleostephus multicaulis** see Chrysanthemum multicaule
- Coleostephus myconis** (Chrysanthemum m.)
Corn Marigold, Margherita gialla, Margarita de Piray, Margherita di Mykonos
139.40 SunnySide*, golden yellow; very rich and long flowering, bushy, spreading and rather tall plant; landscaping 25,--
- Collinsia heterophylla** (C. bicolor)
Purple Chinese Houses, Innocence, Harlequin

- Crithmum maritimum**
Rock Samphire, Criste-Marine, Fenouil marin, Perce-pierre, Herbe-de-Saint-Pierre, Zeevenkel, Meer-Fenchel, Perrexil-do-mar, Funcho-marítimo, Hinojo Marino
160.30 Species, yellowish flower heads; blue-green, feathery foliage 792,--
- Cucumis africanus**
Wild Cucumber, Wild Gherkin, Rhino-komkommertje, Afrikaanse Wilde Komkommer of Okalopolola, Wilde Agurkie, Doringkomkommertje, Monyaku, Mthangazana, Isende-lenja, Uselwa-lwemamba
160.36 Species, fruits of this species, looking like small, prickly and striped cucumbers, were pickled and preserved in Old Cape kitchens; flowers pale to dark yellow with green veins, either male or female, both appearing on the same plant; fruits fleshy to hard, base flat; unripe fruit longitudinally striped dark and light green, maturing to greenish yellow or white, striped purplish brown or yellow, prickles mainly on dark bands p.o.r.
- Cucumis anguria**
West Indian Gherkin, Bur Cucumber, Concombre des Antilles
160.40 Species, immature cucumber fruits are eaten as salad vegetables or pickles and also used as cooked vegetables; foliage is also consumed as salads and cooked vegetables; female blossoms are used as garnish 128,--
- Cucumis adreana**
Green Garnet Cucumber, Groene Granaat Komkommer
160.44 Species, actually a pumpkin variety, but the smell is clearly that of a cucumber; egg-like fruits, but just a bit larger, attractive bright green fruit; the skin is very hard and because of that the fruits can be kept during a very long period; beautiful for floral decoration p.o.r.
- Cucumis dipsaceus**
Teasel Cucumber, Teasel Gourd, Hedgehog Gourd, Concombre Chardon. Karden-Gurke, Distelkomkommertje, Pepino diablito, Wild spiny Fre, Concombre bardane, Kumara, bodikava, Calabacilla, Cojon del diablo, Comida del zorro, Jaboncillo del campo, Pepinillo
160.48 Species, egg-like, but just a bit larger, attractive bright green fruits; look as if they are prickly, but harmless; the fruits can be kept during a long period; beautiful for floral decoration p.o.r.
- Cucumis melo**
Melon, Melón, Melones, Melone, Meloen
160.52 Paradiso, early maturing variety developed in 1905 as a "crate melon"; softball-sized, netted fruits usually weight about a pound; complex spicy flavour 50,-- / 1.000 sds
- Cucumis melo dudaim**
Pocket- Sweet Scented- or Pomegrate Melon
160.56 Queen Anne's Pomander, a very small melon is grown for the fragrance and the beauty; fruits produce a strong, sweet melon scent that will overpower most odours; fruit is a large duck egg or tennis ball in size and orange in colour with a darker striping; is used as an ornamental climber nowadays, on trellises and arbours 128,--
- Cucumis melo flexuosus**
Snake or Serpent Cucumber
160.60 Painted Serpent; the best tasting sweetest cucumber, it can grow up to 1 meter long; its thin curled shape remind some of an off-putting snake; ribbed and white striped, fluted fruits 128,--
- Cucumis metulliferus**
Horned Melon, Horned Cucumber, Jelly Melon
160.64 Kiwano, eaten like a melon or pressed as a juice; 4 times as much vitamine C than oranges; taste reminds of banana's with a whiff of lemon; fruits can be stored 6 months; coloured in small stripes green and yellow and become later red bronze; very healthy plants, which are advised to trellish 70,-- / 1.000 sds
- Cucumis myriocarpus**
Gooseberry Cucumber, Gooseberry Gourd, Prickly Paddy Melon, Bitter Apple, Squash melon, Concombre groseille, Beskomkommer, Kruisbeskomkommertje, Pepino silvestre
160.68 Species, a very curious and funny, wild, little cucumber; slightly prickly; looks like a big gooseberry; very decorative light green stripes on a olive green background; can be kept a long time p.o.r.
- Cucumis sativus**
Cucumber, Gurken, Concombre, Cetriolo, Komkommer
161.14 Crystal Apple, a prolific, round and prickly ball-cucumber with a thin, tender, creamy white skin 60,-- / 1.000 sds
161.16 Lemon Apple, fruits are very much like a large lemon in appearance; Round fruits have a crunchy texture and mild skin 40,-- / 1.000 sds
161.18 Square Apple, a strain with 8 cm. blockish, medium green fruits; very mild flavour; very productive and a little seedy 60,-- / 1.000 sds
- Cucumis sativus sikkimensis**

- 161.20 *Ornamental Cucumber, Concombre d'ornement, Ziergurke, Decoratieve komkommer*
Emperor Alexander, a nice, short, fat fruit with peculiar maroon colour netting the skin; can be eaten young or used in winter in dried arrangements like ornamental gourds 50,-- / 1.000 sds
- Cucurbita lagenaria** (*Lagenaria siceraria*)(*C. leucantha*)(*L. vulgaris*)(*L. leucantha*)
Bottle Gourd, Gourde Bouteille, Flaschenkürbis, Fleskalebassen, Pelgrimsfles, Flaskpumpa
- 161.22 Bule, unique hard-shelled fruits entirely covered with small warts or tooth-like bumps 50,-- / 1.000 sds
161.24 Dinosaur, Delphin Maranka, solid green fruits having curved necks and decorative skin-folds 50,-- / 1.000 sds
161.28 Marenka, dark green; knotted, bottle-shaped fruits 18,--
161.30 Penguin, Poire à Poudre, suitable for painting as a penguin 50,-- / 1.000 sds
161.32 Speckled Apple, mid-green, dark green spotted; apple-shaped fruits 22,--
161.34 Speckled Swan, Amphore, Kobra, dark green belly with broad, light green stripes & blotches 18,--
- Cucurbita maxima**
Giant Pumpkin, Winter Squash, Potiron, Kürbisse Reuzenpompoe, Zomerpompoe
- 161.60 Aladdin, small, striped green, yellow and red, turban-shaped fruits on compact plants 16,--
161.64 Atlantic Giant, world record size pumpkin; yellow to orange shell; orange flesh 18,--
161.68 Baby Blue, compact version of the Blue Hubbard; beautiful round grey-green fruits; not too big 16,--
161.72 Garbo, orange "flat"-fruited; mini Rouge Vif d'Etamps 16,--
161.76 Giraumon Galeux d'Eysines, this gourd is a rather old one, mentioned already in the Vilmorin-Andrieux catalogue from 1885; the flesh is yellowish orange, lovely and sweet; the outside is bright orange-pink, covered with wart-like recesses and very decorative 16,--
161.80 Jarrahdale, very decorative and slate-coloured grey fruits of 3 to 5 kg 16,--
161.84 Lakota, the colour of the fruits is green and orange; the flesh is tasting very fine and nutty; 16,--
161.88 Pink Jumbo Banana, skin turns when mature dull deep pink when mature; fruit is somewhat banana shaped 16,--
- Cucurbita mixta** (*C. argyrosperma*)
Winter Squash, Banana Squash, Striped Cushaw Squash, Cushaw Pumpkin, Ayote, El pipián
- 161.98 Pepita Silver Edge, white, green striped fruits 20,--
- Cucurbita moschata**
Cushaw, Winter Squash, Canada Crookneck, Canada Pumpkin, Butternut, Moschuskürbisse, Muskuspompoe, El anco, Anquito, Auyama, Calabaza, Calabaza moscada, Tamalayote o Zapallito Coreano, Pumpkin, West Indian Pumpkin, Zapallo, Labu manis, Cuban pumpkin, Seiyou, Ayote
- 162.00 Futsu Black, dark green, nearly black when ripe; can be stored for about 8 months 16,--
162.04 Hidemi, beautiful dark green fruits colouring to terracotta; small fruits 1-1 ½ kg 22,--
162.08 Long Island Cheese, heirloom; named for the resemblance to a wheel of cheese; flattened fruits are buff-coloured with deep orange flesh. 3 1/2 - 4 1/2 kg and a good keeper 20,--
162.12 Sweet Berry, dark blue fruits 18,--
162.16 Sweet Kikuza, nice 2 ½ kg fruits, very thick-fleshed with excellent eating quality; pale green fruits changing into ochre-yellow 22,--
- Cucurbita pepo**
Zuchetti, Squash, Zucchini, Kussa, Courges, Courgettes, Kürbis, Sierpompoe, Kalebassen,
- 162.60 Cream & Green Patisson, cream, green striped fruits 18,--
162.64 Dancing Gourd, dancing or spinning; years ago children would carry these gourds in their pockets to play with at school where they would spin them on their desks; extremely hard shelled when dried 60,--
162.66 Green Ball, Courgette, Summer Squash, Zucchini, round, dark green fruits on compact, productive bush plants; very thick-fleshed with excellent eating qualities p.o.r.
162.68 Kamo Kamo, yellow, green striped fruits; vigorous vines so they need somewhere to travel; they love fences! 16,--
162.72 Mongogo de Guatemala, beautiful pear-shaped variety; very even in size and form; dark green with lighter green stripes 16,--
162.76 Orange Patisson, turns from golden yellow to orange 16,--
162.80 White & Green Patisson, white, green striped fruits 18,--
163.00 Indy Mix, unique forms; all fruits are multi-coloured 120,--
- Cuphea blepharophylla**
Eye-lash-leaved Cuphea, Köcherblümchen
- 163.90 "Cardinal", a profusion of very attractive, bright red, tubular flowers over a long period; a fine plant and rare in cultivation; forms a compact, bushy, shrubby, evergreen plant with slender-pointed, white, bristly-hairy leaves; should be grown as an annual 240,--
- Cuphea ignea** (*C. platycentra*)
Cigar Plant, Cigar Flower, Firecracker Plant, Red, White and Blue Flower
- 163.92 "The traditional colour", scarlet flowers tipped with grey; showy long flowering bedding plants 166,--
- Cuphea lanceolata var. silenoides** (*C. viscosissima*)
Mouse-eared Quiver- or Butterfly Flower
- 163.94 "Mickey Mouse", an useful annual species with spikes of striking and unusual flowers, each with two 188,--

large, reddish-purple or maroon, velvety petals sticking up like Mickey Mouse ears, with four smaller ones below. Ideal for the border and for cutting. It needs sun and prefers light soils.

Cuphea laevis var. miniata (C. x purpurea)

Quiver- or Butterfly Flower

- 163.96 "Firefly", fiery cerise-carmine-red ; flowers are small and delicately formed, quiver- or butterfly-like in appearance; an excellent as an edging or border plant, is colourful for window boxes or flower pots 126,--
- 163.98 "Summer Medley", mixture of red, rose and purple shades; attractive, long flowering 134,--

Cyanostegia lanceolata

Tinsel Flower

- 164.00 Species, soft mauve flowers; beautiful container plant 284,--

Cycas revoluta

Sago Palm Tree, Cycad, Palmfarn, Cycas du Japon, Sagou du Japon, Sago palm, la Cica, Riesencycas, Cycaspalm, Palmvaren

- 164.10 Species, the well-known slow growing Japanese Cycad; superb house and garden plant 650,-- / 1.000 sds

Cymbalaria muralis (Linaria cymbalaria)

Kenilworth Ivy, Wandering Sailor, Pennywort, Ivy-leaved toadflax, Cymbalaire, La Cymbalaire des murs, Mauer-Zimbelkraut, Muurleeuwenbek, La palomilla de muro, Hierba de campanario

- 175.00 Species, lilac-pink flowers; good for hanging baskets etc. 88,--

Cymbopogon ambiguus

Scent Grass, Lemon Grass, Native Lemon Grass, Australisches Zitronengras

- 175.40 Species, folded glaucous leaves, lemon scented; very attractive; likes full sun and fits well in containers, pots and tubs 126,--

Cymbopogon citratus (Andropogon citratus)(A. schoenanthus)

Lemon Grass, Verveine des Indes, Oil Grass, Zitronengras, Citroengras, Hierba de limón, Capim-limão, Erva cidreira, Caña de limón, Caña snta, Citronella, Hierba limón, Hierba limonera, Limoncillo, Malijillo, Sereh, Hierba limón, limón o limoncillo, Limoncillo seco molido, imonaria, Limoncillo, La hierba limón o limoncillo, del limoncillo seco

- 175.44 Lemony, tropical Old World- or lemon-scented grass; a very attractive potplant to be used at short distance from the kitchen 93,80 / 1.000 sds

Cymbopogon martinii (Andropogon m.)

Palmarosa, Gingergrass, Rusa, Geranium Grass, Rosha Grass, Süßgras, Vaishnavi

- 175.48 Species, fragrant like a sweet cross between lemon grass and rose-scented geranium 260,--

Cymbopogon obtectus

Silky Heads Lemon Grass, Silky Umbrella Grass, Seidenkopf Zitronengras

- 175.52 Species, attractive aromatic grass with silky white flowerheads 164,--

Cyperus alternifolius

Umbrella Plant, Papyrus à feuilles alternes, Souchet à feuilles alternes, Plante ombrelle, Parapluplant, Papyrusplant, Cypergras, Piragüitas, Planta paraguas, Ciperu, Paragüitas, Planta paraguas, Ciperu, Planta sombrilla, Quitasol, Falso Papiro, Ahuawa haole, Puukaa haole

- 176.00 Umbrella Plant, umbrella-like leaves; popular easily grown houseplant 326,--

Cyperus glaber (Pycneus glaber)

- 176.04 Species, can stand both dry and wet circumstances; very decorative; beautiful and suitable for cutting 288,--

Cyperus papyrus

- 176.08 Papyrus, a stately aquatic member of the sedge family; plants are easily cultivated and suitable for medium to large water features, especially in warmer climates; bright green, smooth, rounded culms (flowering stems) which are up to 40 mm thick at the base and may be up to 5 m tall in ideal conditions; topped by a dense cluster of thin, bright green, shiny stalks, which resemble a feather duster when young; stalks elongate later and bend gracefully downward under their own weight so that the cluster becomes almost spherical in shape; during summer these stalks bear small brown spikelets (groups of flowers) and eventually numerous tiny dark brown fruits are borne in the axils of glumes (tiny scales) 144,-- / 1g

Cyperus vegetus (C. eragrostis)

- 176.12 Galingale, crowded heads of mahogany-coloured flowers 36,-- / 10 g

Cyphomandra betacea

- 177.00 Tamarillo, tree tomato; popular edible red fruit 55,--

233.40	Na'Palnga*, bright yellow, long stemmed wide flowers which are sometimes veined purple or red, with a dark centre; ideal for boxes, containers, pans, pots etc.	p.o.r.
Gaillardia pulchella nana (G. bicolor)(G. picta) <i>Double flowered varieties</i>		
234.20	Red Plume, red powderpuff flowers	8,24 / 1.000 sds
234.24	Yellow Plume, buff-yellow powderpuff flowers	8,24 / 1.000 sds
Galanthus nivalis		
234.60	Common Snowdrop, the well-known early flowering, white snowdrops	62,-- / 10 g
Galega officinalis <i>Goat's Rue, French Lilac, Italian Fitch, Professor-weed, Geissraute, Geissklee; Ziegenkraut, Fleckenkraut, Ziegenraute, Bockshornkraut, Pockenkraut, Rue du Chèvre, Sainfoin d'Espagne</i>		
234.70	Species, handsome herb with long-stalked clusters of white pea-like flowers with bluish flag; flowering very rich and during a long period; mentioned in Culpepper as an alternative for rennet in cheese making; has supportive action in lowering blood sugar in diabeti	11.40
Galium odoratum (Asperula odorata) <i>Lady's Bedstraw</i>		
235.00	Sweet Woodruff, white flowers; fragrant groundcover	84,--
Galium verum		
235.14	Lady in Yellow*, flowers the first year with numerous yellow flowers in small clusters on pretty, compact, rounded, fresh green tussocks; a perfect species for pots etc. on the balcony or in the rock garden	34,--
Galtonia candicans (Hyacinthus candicans)		
235.00	Cape Hyacinth, pendulous white blooms with a delicate scent	448,--
Galtonia viridiflora <i>Summer Hyacinth, Green Cape Hyacinth, Riesen Hyazinthe, Kaapse Hyacint, Grönblommiga Kaphyacinten</i>		
235.04	Chimes, genuinely apple green, snowdrop-like flowers	448,--
Gardenia jasminoides		
235.20	Zhi Zi, wonderfully scented white flowers; evergreen with dark green, leathery leaves; succeeds as a houseplant too	40,--
Gaultheria procumbens (G. repens)(Brassaea procumbens) <i>Creeping Wintergreen, Eastern Teaberry, Boxberry, Checkerberry, Gaulthérie couchée, Palommier, Thé de Terre-Neuve, Scheinbeere, Moosbeere, Rebhuhnbeere, Amerikanisches Wintergrün, Wintergrünstrauch, Bergthee</i>		
235.40	Creepin'Green, a carpeting plant with dark green, thick leathery leaves; when bruised, the dark green lustrous leaves and red berries release their unmistakable aromatic 'wintergreen' scent. It is neat and dwarf, flat-growing cover, with tiny blush-white flowers that are followed by red fruits	648,--
Gaultheria shallon <i>Salal, Shallon, Shallon-Scheinbeere, Bergthee, Appeltjesblad, Patrijsbes, Busket bjergte</i>		
235.44	Species, flowers are pendent, typically heather-bell shaped, pinkish-white; evergreen; decorative foliage; good for cutting; dark purple berries; the leaf-stalks, flower stems and bracts, and young branches are reddish and bristly; in its range it is a lovely easy groundcover	314,--
Gaura lindheimeri		
235.50	The Bride, white, tinted rose, buds tinted purple; very elegant	76,--
Gaura parviflora		
235.54	Red & White*, extremely large umbels with the red & white flowers; 1st year flowering as a colourful show	p.o.r.
Gazania rigens (G. splendens)		
235.80	Sunshine Hybrids Mixed "normal seed"	34,--
235.82	Sunshine Hybrids Mixed "clean seed"	142,--

rockeries; propagation only by seeds

Inula salicina

Willowleaf Yellowhead, Irish Fleabane, Inule à feuilles de Saule, Weidenblättriger Alant, Wilgebladlant, Wilgalant, Krissla, Krattalant, Pile-Alant, Rantahirvenjuuri

272.50 Species, daisy-like perennial with hairy green leaves; golden yellow flowerheads of fine, narrow petals which attract pollinating insects; it is known in the wild only from a lake shore in Ireland, but grows well as a marginal plant of ponds, and provides welcome late colour in a wildlife garden 264.--

Ionopsidium acaule

273.00 Starry Blue Blaze*, low tufts of leaves covered all summer with a profusion of tiny, bright and simple lilac-lavender flowers; lovely honey-like scent, when near at hand 174.--

Ipomoea costata

274.00 Nativia Sweet Potato, large pink to purplish pink flowers, shiny green foliage; needs arid conditions; as an ornamental useful as a groundcover 158.--

Ipomoea hederacea see *Pharbitis hederacea*

Ipomoea hederifolia see *Quamoclit hederifolia*

Ipomoea hirsuta (l. *hederacea triloba*) see *Pharbitis hederacea*

Ipomoea leptophylla

274.84 Man-of-the-Earth, corolla pink shading to purple in the throat; flowers open in the morning and close before noon; narrow leaves on mound-shaped plants 35.-- / 100 sds

Ipomoea luteola

274.88 Orange Morning Glory, masses of small orange flowers; quick to bloom 14.--

Ipomoea muelleri

274.92 Pink, bright pink to purple, bell-shaped flowers in a slender twiner, dark green foliage; heart-shaped leaves; superb groundcover ! 126.--

Ipomoea nil (*Pharbitis n.*)(*Convolvulus n.*)

275.00 Blue Picotee, dark blue, purple star and white edge; star-shaped flowers 86.--
275.04 Chocolate Beauty, soft chocolate coloured; huged flowers 62.--
275.08 Grandpa Ott, purple with darker bands 16.--
275.10 Kikyo-zaki, a mixture of Platycodon-like or star-shaped flowers with white edge 86.--
275.12 Kniola's Black, purple-black with cerise throats 16.--
275.16 Milky Way, white with delicate blue star 36.--
275.20 Red Picotee, rosy-red with white edge; star-shaped flowers 86.--
275.24 Rosita, red with white star and white edge 62.--

Ipomoea nil (*Pharbitis n.*)(*Convolvulus n.*)

Morning Call Series ; 4 weeks earlier flowering ; extra large flowers ; more compact, bushy habit ; well suited for hanging basket, pots etc. and the border; excellent variety for a cooler climat

276.00 Blue with white edge 32.--
276.04 Pink 32.--
276.08 Red with white edge 32.--
276.12 White 32.--
276.20 Mixture 32.--

Ipomoea pes-caprae ssp brasiliensis (l. *biloba*)

Goats-foot Morning Glory

276.60 Species, showy pink to purple flowers; glossy green foliage; needs arid conditions; groundcover 126.--

Ipomoea purpurea (*Pharbitis p.*)(l. *hispida*)

277.00 Caprice, light blue with violet star 16,50
277.04 Shiva, white with rose star 16,50
277.08 Split Personality, magenta pink with white centre 50.--
277.12 Star of Yelta, deep blue with purple star and pink eye 50.--

Ipomoea tricolor (l. *rubro-caerulea*)(l. *violacea*)(*Pharbitis rubro-coerulea*)

277.60 Blue Star, soft blue with deep blue star 18.--
277.80 Flying Saucers, an unusual old variety, almost lost; large sky-blue flowers with dark blue parts separated by narrow white stripes 18.--

Ipomopsis longiflora

277.84 Long-flowered Gilly, pale blue, narrow trumpet flowers with star-shaped ends; tall stamens; looks like windswept hair 75.-- / 1.000 sds

galeobdolon)(Lamiastrum galeobdolon ssp. luteum)

Yellow Archangel, False Lamium, Lamier jaune, Goldnessel, Gele Dovenetel, Gajowiec Zólty, Gulplister, Gulltvitann, Guldnæld, Keltapeippi

282.30 Species, yellow flowers with a "hooded" upper petal and "lipped" lower petal that are characteristic of the Mint family; clusters of small flowers occur at the stem nodes 124,--

Lamium amplexicaule

Henbit Deadnettle, Common Henbit, Giraffe Head, Peu de gall, Stängelumfassende Taubnessel, Hoenderbeet, Mjukplister, Mjuktvitann, Liden Tvetann, Sepiväpeippi, Mjúkatvítönn

282.34 Species, flowers are pink to purple; it flowers very early in the spring even in northern areas; a low-growing annual plant with soft, finely hairy stems; an important nectar and pollen plant for bees, especially honeybees, it helps start the spring buildup; edible young leaves and shoots in spring 80,--

Lamium maculatum

Dead Nettle, Spotted Nettle, Spotted Henbit, Lamier maculé, Lamier vivace, Gefleckte Taubnessel, Gevlekte Dovenetel, Ortica morta, Jasnota Plamista, Foltos árvacsalán, Hluchavka škvrnita

282.38 Species, an interesting species with relatively large, open flowers which are coloured old rose with an orchid-like underlip; does extremely well in shadowed places and under trees; very attractive for bees, because of the high nectar gift 156,--

Lantana camara (L. aculeata)(L mutabilis)(L. nivea)(L. crocea)

MultiColoured Verbena

282.40 Dwarf Hybrids, shades of lilac, pink, white, yellow, orange and red 256,--

Lantana urticifolia

282.46 Pink Beads*, rather small, rounded spikelets, clothed with small pink forget-me-not-like flowers; later on the small the bead-like seeds are colouring old rose; heliotrope-like, dark green foliage p.o.r.

Lasiospermum bipinnatum

282.60 White Arrows*, white daisy-like flowers; finely divided fern-like leaves; reminiscent of camomile; forms dense stands 310,--

Lasthenia coronaria (Baeria c.)(Actinolepis c.)(Hymenoxys californica)

282.70 Brillo del Sol, bears masses of small golden-yellow flowers, from July to September, above its finely divided foliage; this attractive annual deserve to be better known, for they are extremely showy and free flowering p.o.r.

Lathyrus belinensis

Schmuck-Wicke, Guisante, Liekkinätkelmä, Ærtebloms, Flamvial

282.80 "Goldmine", outward and upward facing flowers cover the plant, with the top half being red veined butterscotch and the bottom half being lemon yellow; most striking, handsome and very desirable 240,--

Lathyrus chloranthus

282.90 "Limetta", rather dainty Lathyrus of yellow to lime green colour; extremely vigorous and if given shelter will go on producing 'yellow-sweet-peas' well into early autumn 100,--

Lathyrus maritimus

283.00 Beach Pea, blue-violet with light lip; blue green foliage; salt tolerant 44,--

Lathyrus nervosus (L. magellanicus)

283.10 Lord Anson's Pea, clear sky blue flowers on short strong stems; bluish foliage 198,-- / 1.000 sds

Lathyrus odoratus

- 370.90 *Bronze New Zealand Flax*
Monrovia Red, yellow-orange flower spikes; attractive fan-shaped clumps of burgundy-bronze sword-like leaves make this plant a stunning accent; useful for mass plantings, and textural accents 760,--
- 371.00 **Phragmites australis** (P. communis)
Common Reed, handsome drooping purplish-brown panicles; stems for thatching; needs abundant moisture; can grow up to 6 meters high in dense stands 212,--
- 372.00 **Phuopsis stylosa** (Crucianella stylosa)
Smell to Smile*, rather strong scented, pink flowers; bright green, finely divided foliage 512,--
- 372.10 **Phygelius aequalis**
River Bells*, pure, soft pastel yellow flowers in oblong cymes 72,-- / 1 g
- 372.20 **Phygelius capensis**
Cape Fuchsia, nodding scarlet flowers in many flowered panicles; superb plant 56,-- / 1 g
- 372.30 **Phyllia dulcis** (Lippia dulcis)
Aztec Sweet Herb, Plante sucrée des Aztèque, Aztekisches Süßkraut, Aztekenkruid, Hierba dulce azteca, Oroznz, Mexican Lippia, Aztécké sladidlo
Species, low creeper with small white flowers; fast growing attractive groundcover for areas with mild winters; leaves have a curious and amazingly sweet flavour and turn red when the temperature drops; an attractive curiosity; excellent in hanging baskets 234,--
- 372.40 **Physalis alkekengi** (P. buniardii)(P. franchetii)
Bladder Herb, Winter Cherry, Chinese Lanterns, Japanese Lantern, l' Alkékenge, Amour en Cage, Coqueret, Lanterne, Lampionsblume, Blasenkirschen, Judenkirschen, Echte Lampionplant, Hozuki
Gigantea, large red fruits enclosed by the bright orange or orange-red calyx 26,50
- 372.44 Pygmy*, smallest glowing orange paper-lantern fruits; good in pots 68,--
- 373.00 **Physalis peruviana pruinosa**
Tall Cape Gooseberry, Cossack Pineapple, Barbados Gooseberry, Strawberry Tomato
SunFruit*, large fruited; in papery husk; are picked when the papery husk gets a straw like colour; fruits are relatively large, but they ripe later than the Pineapple Cherries. They taste excellent! Can be eaten fresh or preserved; an easy crop 32,-- p. 1000 sds
- 373.10 **Physalis peruviana pubescens**
Dwarf Cape Gooseberry, Tiger Cherry
Pineapple Cherries*, fruits are smooth, rather small, sweet, yellow-orange early ripening and when ripe they fall off and the only thing to do is gathering 36,--
- 373.30 **Physostegia virginiana** (P. denticulata)(P. latidens)(P. nivea)(P. speciosa)
Rose, beautiful strong, snapdragon-like, rose-pink flowers 120,--
- 373.34 White, as above but pure white 100,--
- 373.50 **Plantago major rosularis**
Green Roses
Bowles Variety*, intriguing pyramidal, deep green rose-like rosettes, reminiscent of a small green zinnia 204,--
- 373.60 **Platycodon grandiflorus** (Campanula grandiflora)(Wahlenbergia grandiflora)
Blue, deep blue; star-shaped flowers with exotic inflated, balloon-like buds 54,50
- 373.64 Rose, as the above, but bright pink 120,--
- 373.68 White, as the above, but pure white 104,--
- 373.70 **Platycodon grandiflorus apoyama nana**
Streaker, a dwarf and beautiful white with blue veins 94,-- / 10 g
- 373.74 **Platycodon grandiflorus nana**
Mini Blue*, flowers the first year from seed with bright violet-blue flowers; excellent for pots and garden; really wonderful 310,-- / 10 g
- 373.78 Mini White*, as above, but pure white with a few light blue lines 310,-- / 10 g
- 373.90 **Platystemon californicus** (P. leiocarpus)
Cream Cups, large five petalled creamy flowers about 3 cm across, splashed yellow at the base; an unusual, pretty, delicate looking dwarf spreading Poppywort; glaucous-green hairy foliage, forming a tuft 328,--
- 374.00 **Plumbago auriculata** (P. capensis)
Sky-blue, a profusion of clear sky-blue flowers in phlox-like heads 80,-- / 1.000 sds

- Podolepis jaceoides**
Showy Podolepis, Everlasting
374.06 Species, distinct new golden-yellow everlasting; solitary flowers 336,--
- Poinciana gilliesii** see *Caesalpinia gilliesii*
- Poinciana pulcherrima** see *Caesalpinia pulcherrima*
- Polemonium caeruleum**
374.18 Blue Pearl, azure-blue; early- and long flowering 34,--
374.26 White Pearl, pure white counterpart of Blue Pearl 64,--
- Polemonium cashmerianum**
374.30 Flying Saucers*, showy & open, large, bright gentian-blue flowers with a large whitish centre and very decorative, deep yellow pollen and a darkblue stigmaic lobe; attractive foliage; dwarf compact, bushy plants; beautiful for bedding, containers, pots, etc.; one of the most graceful polemoniums, actually it looks even as a bellflower-variety 40,-- / 1 g
- Polemonium pauciflorum nanum**
374.40 Brassband*, tubular yellow-tan trumpet-shaped flowers with red markings on the back, in large clusters on strong stems; dwarf plants 768,--
- Polemonium pulcherrinum**
374.50 Blue, bell-shaped flowers; violet-blue with yellow throat and dark purple spots; feathery foliage; compact 246,--
- Polycalymna stuartii** (*Myriocephalus* s.)
374.60 Poached Egg Daisy, charming cut flower and everlasting; white, yellow centred flowers 196,--
- Polygonum bistorta** (*Bistorta major*)
374.64 Fleece Flower, pink flowers in dense cylindrical spikes, solitary and terminal, radical foliage 126,--
- Polygonum capitatum** (*Persicaria* c.)
374.66 Punching Balls*, a trailing plant with many, clover-like heads, composed of a myriad of tiny pink flowers against nice, green and bronze foliage; reddish stems 62,--
- Polygonum hydropiperoides**
Wasabi Plant, Water Pepper
374.70 She Chuan Zi, an interesting plant that is related to smart weeds; .Japanese culinary herb, the leaves are much used for flavouring "sashimi", or for mixing with rice. Sharp, acrid hot taste. This strain has reddish stems with drooping pink flowers p.o.r.
- Polygonum tinctorium**
Dyer's Knotweed, Japanese Indigo, Indigoduizendknoop, Färberknöterich, Liao Lan, Xian Lan
374.74 Species, terminal clusters of small pink flowers; the compound "indican", which yields indigo, is present in the leaves; substitute for Isatis as a dye plant because the leaves produce a beautiful blue dye; annual herb used medicinally in China; similar in appearance to the common Smartweeds 320,--
- Polypogon monspeliensis**
374.78 Beard Grass, showy dense tawny-yellow panicles 24,--
- Portulaca grandiflora**
374.88 FlowerFlow*, abundance of beautiful, sprightly, straight colours in a grand style blend; large double flowers; extraordinary long flowering 36,--
- Portulaca scandens**
Sun Jewels, Chevalier d'onze heures
374.90 Dancing Girls*, real jewels for the balcony, hanging baskets, containers, pots and so on, where they play in colour and different heights, hanging, climbing and performing as Dancing Girls p.o.r.
- Potentilla anserina**
Goose Grass, Silverweed, Zilverschoon, Potentille des Oies, Gaensefingerkraut, Gänserich, Gåsör, Tagamura
375.10 Species 24,-- / g
golden-yellow flowers; green feathered foliage; silvery coloured underneath
- Potentilla argentea**
375.20 Silvery Cinquefoil, a delightful, species with attractive foliage, beneath silver-foliaged and very charming single rose-like sulphur-yellow flowers 76,--
- Potentilla atrosanguinea**
